Custom Converter Program

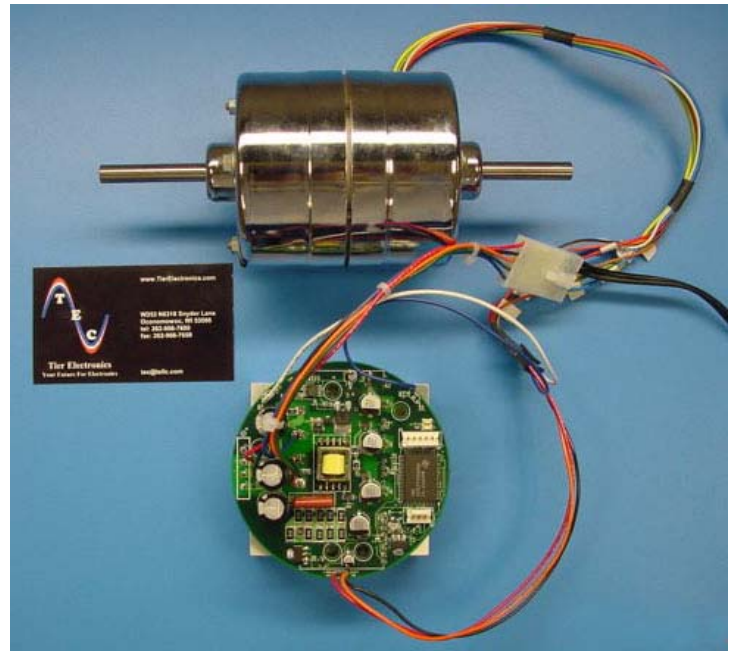

Tier Electronics' custom converter program is for OEMs who need cost effective and efficient, medium to high volume designs.

Benefits of the Custom Converter Program:

- All the features of TCA, UPC or AIO technologies
- Power ranges of 50 W and greater
- Medium to high volume OEM designs
- Cost reduced designs that meet the exact needs of an OEM specification
- OEM technology rights available
- Medium to high volume direct purchase production programs

Target Industries:

- Power Tool
- Appliance
- Automotive
- UPS
- Motor Drive
- Power Supply
- Power Quality

**Example of a 2 HP high frequency
Brushless DC motor controller based on
the low power UPC converter series.**
